### Helsinki in brief

Helsinki, the capital of the Republic of Finland, is a modern city with over half a million residents and is situated on the Baltic Sea. In 2000 Helsinki was an official European City of Culture while celebrating its 450th anniversary.

Helsinki together with the neighbouring cities of Espoo, Kauniainen and Vantaa forms the Helsinki metropolitan area with more than a million inhabitants.

### Maps

Take a look at the map service info on Transportation page

### Capital where Eastern and Western cultures meet

Helsinki is unique among Northern European cities. The lifestyle in the second-most northern capital city in the world is full of contrasts and activities in the form of hundreds of events and friendly people. Helsinki's identity has been formed by cultural influences from both the East and West. Helsinki will be the World Design Capital in year 2012 (www.wdc2012helsinki.fi)

The archipelago that surrounds Helsinki with hundreds of tiny islands creates an idyllic environment for cruises, for example.

Over 450 years of history, several architectural layers and the impact of different periods can be clearly seen in Helsinki. Finnish design has also made the country's capital city world famous. The beauty of the surrounding nature blends seamlessly together with high-tech achievements, while old traditions mix with the latest contemporary trends. The city centre has many beautiful parks, and the nearby forests offer an ideal setting for peaceful and quiet walks.

Helsinki's rhythm is laid back yet at the same time refreshingly active in terms of both the number and quality of restaurants and nightclubs.

Everything is nearby – Helsinki is a pocket-sized metropolis that is ideal for visitors!
