1. INTRODUCTION

Dear Sirs and Madams, Dear Participants of The World Games 2017 Wrocław!

It is my great pleasure to introduce to you the second issue of **“The World Games 2017 Bulletin”**. Following the good practice from the first edition, Wrocław Organizing Committee will present the current status of the preparations to the Games and forthcoming tasks and processes.

Please, let me remind the news from the end of the year of 2014 about new of dates for The World Games 2017. **The 10th edition of this event will take place from 20 – 30 July 2017.** These new dates would prevent a scheduling conflict with other major events and underlined the evident advantage of getting better media coverage when staging The World Games 2017 at the end of July. After intense discussion and consultation with IWGA’s media and marketing partners, the new date for the event was jointly chosen by WOC and IWGA.

I am proud to inform you that the last six months were a busy and fruitful period for the WOC. First of all, the Municipality of Wrocław was established a wider **cooperation with national and regional government** on the 10th edition of The World Games, by signing the appropriate Agreements with Ministry of Sport and Tourism and with the Lower Silesian Voivodeship. Another fundamental agreement was signed with the Polish Olympic Committee. The aim of all listed agreements is to combine organizational success with the long term value provided by creation of the optimal conditions for the popularization and development of physical activity among citizens.

Another important achievement, especially for the IWGA Member Federations, is a presentation of the **Daily Sports Schedule**, which was announced officially by IWGA in the end of November 2014 during the 1st Competition Managers Meeting in Wrocław. In this very place, I would like to express my gratitude to all International Federations which sent their Competition Managers to the CMM. I am sure that both Wrocław Organizing Committee and member Federations gained a lot from this meeting, putting us all two steps ahead in our partnership.

Finally last, but not least, it is my pleasure to congratulate **Birmingham (Alabama, USA)** local authorities and the bidding Team for winning the right to **host The World Games in 2021!**

I wish all of you **the very best in the year 2015**. Let it be challenging, exciting and obviously - very sporty!

On behalf of Wrocław Organizing Committee

- **Piotr Przygoński, President**

2. SPORTS PROGRAMME

Daily schedule of The World Games 2017 in Wrocław

The daily schedule of the sports programme for the 10th edition of The World Games has been announced. According to the co-decision of IWGA and WOC about the new dates of event, the Games will take place from 20th – 30th of July 2017. The World Games 2017 will showcase 27 sports altogether within the official sports program, with an additional 4 invitational sports.

In Appendix no. 6 you will find the daily schedule. Please mind that slight changes in the competition timing will be still possible within each day.

a. Test Events

Test events allow organizers to examine operational readiness and services. It can provide organizers with valuable knowledge on the level of popularity of certain sports and disciplines among spectators. In 2015 we plan to co-organize as test events:

- Polish Karate Championships, 21st of February 2015
- Polish Sport Dancing Championships, 6-8th of March, 2015

In 2016 we plan to organize as the test events:

- Ju-Jitsu World Championships
- Orienteering World Cup

These are not the only test-events. More info about further ones will be announced in the next bulletin.

b. Venues

During the Competition Managers Meeting (November 2014), delegates had the opportunity to visit the proposed venues of competition. Consequently, WOC could receive feedback from them. All remarks are currently being analyzed for possible modification. The final decisions will be made till March 2015. WOC also started working on the preparation of the first operational maps (overlays), which will be handed to the delegates for opinion. Additionally in 2015, we start the purchases related to provision of equipment needed to carry out the competition.

In this bulletin we would like to show you another three venues in more details.

• Hasta la Vista

Hasta la Vista is a modern and professional sports centre complex enabling squash, badminton and table tennis trainings as well as body shaping at the gym. The vast space provides comfort of watching important competitions and allows limitless possibilities for organizing of sporting events also world class. So far, Hasta la Vista hosted top players during the World Junior Championships 2013 and the best Polish players during the Individual Polish Championship in 2014 – one of the most important competition in Poland. This is a very rare quality in existing facilities, not only in Poland but also in the world. Hasta la Vista is currently the largest squash center in Poland and consists of:

- 19 – squash courts (courtech)
- 6 – badminton courts
- 4 – table tennis
- 4 – zones gym (Cardio, Crossfit, free weights, machines)
- Zone SPA – with Finnish sauna, steam bath, infrared and jacuzzi

Number of spectators: At the full glass main court for min. 500 seats

- **Sky Bowling**

Sky Bowling is situated in Sky Tower is the tallest building in Poland. In the scope of residential complex, office, commercial space and recreation in Wrocław, Sky Bowling is one of the larger bowling center in Poland. The complex has 24 bowling tracks, which have been already tested during, the sport events as Qubica AMF World Championships and Polish Cup. where meets all the requirements of international federations.

Number of spectators: a few hundreds of spectators

- Millennium Park Complex

Millennium Park is an urban park located in the western part of the city. It is situated on the left (western) bank of the Ślęza River, which simultaneously creates its eastern border. Millennium Park is an area of approximately 90 hectares. For the organization of The World Games 2017, a sports complex for roller and boules sports will be created there. The concept envisaged the construction of 2 roller skating tracks and a professional field for boules sports.

Number of spectators: Min. 1500 spectators

Please see Appendix no. 5 showing where the facilities are located.

3. GAMES SERVICES

a. Accommodation

The Accommodation Concept summarizes the recent status of Wrocław's accommodation capacity; analyzes possible options in line with those published on the First Competition Managers Meeting daily schedule; defines time lines, estimated budget and next steps for successfully accomplished accommodation process.

On 29th of October 2014, 2nd meeting with Wrocław's Hotels directors took place, on which WOC's President Piotr Przygoński announced the beginning of arrangements to guarantee success of accommodation during TWG 2017. In the meantime, the first pre-booking process was accomplished. At present is conducting individual talks with particular hotels regarding capacity, capability and accommodation conditions. The objective for the year 2015 is to have negotiation process with all involved hotels finalized and related accommodation agreements signed.

Extra officials

The process of preparing concepts of accommodation, of which an element is also assuring appropriate standards for the extra officials, is in progress. **WOC would be indebted if it could be given information from the Sports Federations on the estimated number of the extra officials from the Federations.** Please direct the correspondence regarding this particular issue to *Cyril Allavena*, the Games Services and Special Programs coordinator, e-mail:

cyril.allavena@theworldgames2017.com

More information about accommodation concept will be delivered in the next bulletin.

Please see Appendix no. 1 with the list of rated hotels in Wrocław.

b. Safety & Security

On the 25th of September, WOC held the first official meeting with all parties involved in TWG 2017 Safety & Security issues. The aim of this meeting was to announce the beginning of Safety & Security Concept elaboration and to initiate any future co-operation in this significant issue. The Safety & Security Concept defines the scope of work to be executed to ensure harmless participation in The World Games 2017 for all attending target groups as athletes, officials, VIPs and spectators. In relation with respective legislation, it describes duties and roles of all parties involved like: WOC, the Police, Fire-Department and other authorities or services. This document also contains of the first estimation of resources needed. The year 2015 is the time for close cooperation with the Police, Fire-Department, authorities or services which may be concerned with development of TWG 2017 Safety & Security Concept. **WOC plans to start this process on February organizing the 2nd meeting in Safety & Security issues.**

c. Accreditation

In the field of the accreditation process, Swiss Timing is the official partner of the IWGA. At present, WOC and Swiss Timing are specifying the details of the cooperation, in order to assure the highest standards possible during the World Games 2017. **According to the project's schedule, the accreditation system will be open about six months before the Games.**

**d. Anti – Doping**

The WOC shall undertake to conduct doping control tests in accordance with the rules and procedures of the IWGA Anti-Doping Rules on a percentage not exceeding 10% of the total number of participating athletes in both official and invitational events. All tests will be carried out in accordance with WADA regulations. The WOC started cooperation with the Polish Commission Against Doping in Sport (National Agency), which will provide control teams during the Games. The main laboratory will be located in Warsaw.

e. FICS Service

The International Federation of Sports Chiropractic / Fédération Internationale de Chiropratique du Sport (FICS) is comprised of national chiropractic sports councils worldwide and individual members, and has affiliations with international organizations within the chiropractic profession and the world of sports. FICS is the official partner of IWGA, involved in the games since 2005. During The World Games 2017, the main goal of FICS is to assure all athletes specialized service of chiropractors as a part of the sports health care team. They will be available on all venues during the competition days free of charge.

f. Volunteer Services

The beginning of the volunteer service in Wrocław dates back to 1997, and is strongly associated with two events that arouse extreme emotions. The first one was the flood in July 1997, which brought great damage to the entire city, while the second one was the 46th World Eucharistic Congress. It was the Eucharistic Congress that laid the groundwork for voluntary service in our city.

Between May and June 1997, over 1300 volunteers were involved in the organizational activities. Moreover, in May 2003, volunteers assisted the Weimar Triangle Summit, which was hosted in Wrocław at that time. The growing interest in this type of volunteering, as well as the possibility of participation in numerous spectacular events, enabled the launch of the Volunteers for Wrocław project. As a rapidly developing city of many cultures, with a strong academic environment and dozens of people different age involved, the capital of Lower Silesia managed to create an institutionalized structure. Starting from 2005, Wrocław's voluntary service is growing rapidly. For the last nine years the assistance of volunteers has been proven invaluable during big events such as the already mentioned European Summit of Regions and Cities in 2005, Futurallia (2006), Beijing 2008 Olympic Qualification Tournament in Men's Handball, the Visit of Dalai Lama XIV, EuroBasket (2009), Acrobatic Gymnastics World Championships (2010), Wrocław Global Forum (2010-2014), Host Cities' Volunteers for UEFA EURO 2012™, Polish Masters Football Tournament (2012), the III Polish Oncology Congress (2012), the 25th Anniversary Conference of the Academia Europaea (2013), the Innovation Festival 2013 and the Central and Eastern Europe Christians Meeting (2014). Each event attracted dozens of volunteers who, together with the organizers of the projects, contributed to the full success of those events. What's more, in 2016, when Wrocław will be the European Capital of Culture, it is planned to involve the astonishing number of 3500 volunteers, who will be a significant part of the entire project. Wealth of experience in the organization of

volunteer services in Wrocław guarantees the highest quality of this important operational aspect during TWG 2017.

The concept of Volunteer Services during the Games will be known until the end of 4th quarter of 2015.

g. First Aid and Medical Emergency

14 hospitals, 74 specialized medical clinics and emergency service provide medical care in Wrocław every day. During The World Games 2017 in Wrocław, medical service will be secure in all venues of competition and to all participants and spectators. The specific concept of The World Games 2017 medical care service will be prepared in the second quarter of 2015 and will include: dedicated hospitals (participants, VIP), medical care in venues for spectators, medical services on venues for athletes (in accordance with the sports regulations).

Insurance for Competitors

At the latest by 31 December 2016, the Host City shall publish any medical and public liability insurance requirements for competitors and their equipment, as well as conditions and prices for additional insurance coverage available for purchase on arrival in the Host City.

Medical concept in detail will be known until the end of 2nd quarter of 2015.

Please look at Appendix nr 4 to see where the hospitals are located in Wrocław.

h. VISAS

Since December 21, 2007, Poland is part of the Schengen Area, a zone without controls on internal borders which comprises of 28 countries. Third-country nationals may enter Poland if they are in possession of a valid travel document and a visa (if required). Council Regulation includes the lists of third countries whose nationals must possess valid visas to cross external borders, and of countries whose nationals are exempt from this obligation.

List of countries whose nationals may enter Poland without a visa (as of January 2015):

http://www.msz.gov.pl/en/travel_to_poland/entering_poland/visa_free/visa_free_countries

Moreover, in 2015, WOC plans to include a new bookmark on the website:

www.theworldgames2017.com where information on ways of getting visas and cooperation with WOC is going to be continually updated.

Games Services Department plans to elaborate Transportation Concept (until the end of 4rd quarter of 2015) and Catering Concept (until the end of 1st quarter of 2016).

4. TRANSPORTATION VENUES - REVIEWS

a. Wrocław Main Railway Station

Wrocław's main railway station has never looked better. Completed in 1857, this grandiose Neo-Gothic building, with its decadent exterior of turrets and crenellations, has been given a fresh blaze of bright orange-yellow paint – and while not necessarily the colour we would have chosen, it certainly makes an impression. During 2010-2012, due to UEFA EURO 2012™ Tournament, general renovation and reconstruction works were carried out making the Main Railway Station in Wrocław the most representative building of this kind in Poland. Looking like a grandiose palace from its early days, the station finally has the surrounding grounds to match, with a green public square replete with dozens of benches and two fountains that replaced a car park and a gas station that formerly stood in front of the entrance. Additionally there's a covered bicycle parking and a new underground parking complex nearby. As for getting into city, you are basically in it! The Market Square (Rynek) is within 15 minutes of walking. There is also a transport interchange next to the station (trams and buses stops). Getting to Rynek takes 5 minutes by tram.

b. Wrocław Airport

On the 13th of December, Wrocław Airport was celebrating a special milestone. For the first time in its history Wrocław Airport welcomed the 2-million-passenger served within one year! The Wrocław Airport is situated in south-west part of Wrocław, about 10 km away from the city centre, near Wrocław motorway bypass, which makes the airport easily accessible for passengers driving from Warsaw along the S8 road, from Poznań, along the national road no. 5, as well as for those driving to the airport from the south, using the national road no. 8, and for the passengers driving along the A4 motorway.

Since 2003 the airport has recorded a rapid increase in passenger traffic. Within 5 years, the number of passengers increased five times. The airport provides its services to network carriers which offer flights to the major hubs in Europe, low-cost carriers, like Ryanair and Wizz Air, which have their operational bases at the Wrocław Airport, and also charter airlines hired by tour operators as a part of a package deal, which includes accommodation, rentals, and other activities for an entire holiday. On 11th of March 2012 a new passenger terminal was opened. Its capacity is almost 4 million passengers a year and in the future it will reach as much as 7 million. This will be the main hub for Wrocław.

5. MEDIA AFFAIRS

a. Media Centre

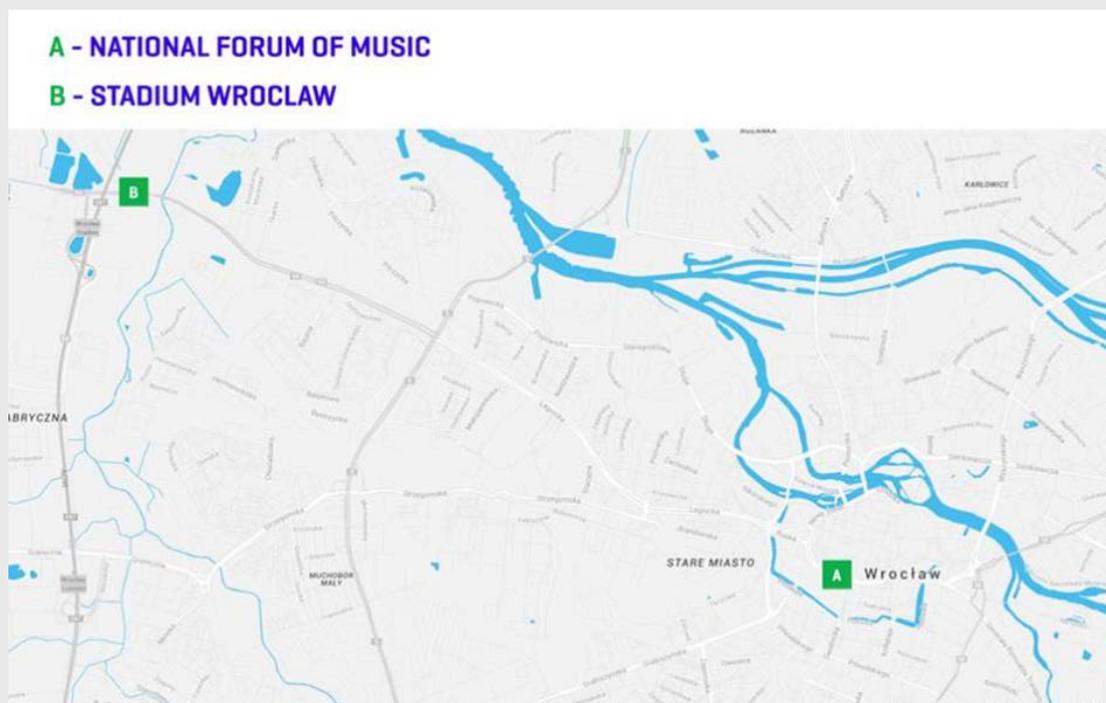

To provide most suitable space and conditions for the journalists and other media representatives, we are analyzing two sites for the Main Media Center – Wrocław City Stadium and the National Forum of Music. Besides the Main Media Center, Organizing Committee is planning to arrange the sub media centers on a number of the sports' venues. These draft conceptions' aim is to make the media communication fast and efficient.

Wrocław City Stadium already served as the Host Broadcaster and Media Center during the UEFA Euro 2012 European Football Championship. The Stadium is well prepared both from the technical point of view and the availability of the space required for media.

National Forum of Music, although never used for this purpose (as it is still under construction), has many advantages too – located in the very heart of the city, with modern technical infrastructure and much space to take the advantage of, just next to the preliminarily planned World Games Plaza (fan zone).

WOC plans to present the final site of Media Centre in the next edition of bulletin.

Moreover there will be media facilities at facilities at each venue or in the reach of respective venue to ensure high-standard coverage.

b. Host Broadcaster and TV Production

The public procurement procedure for choosing the Host Broadcaster is in progress. We are willing to select reliable, capable and qualitative Broadcaster for the Games in Wrocław and to deliver high standard media coverage. WOC representatives held an insight dialogue with the Polish and international broadcasting entities. In the meantime, the in-depth analysis of all sports venues was prepared, as a necessary part of estimating resources needed for a TV production.

We expect to complete the selection process in the third quarter of year 2015 and present the chosen HB in the Bulletin no. 3. Moreover, issues related to standard production and rights will be also introduced in the next release.

6. CULTURAL AFFAIRS

a. World Games Plaza

The World Games 2017, same as the previous editions of the Games, will not be made of sports competitions only. Although sport is what gathers people around TWG, a very important site on the Wrocław's map of the Games will be the World Games Plaza. The WG Plaza is the central meeting point for citizens, visitors and participants to socialize and take in the games' atmosphere in a spirit of international solidarity and cultural exchange. The place where one does not need to compete, because everyone is winning the first prize – positive, friendly attitude and lot of fun. The preliminary plans are to locate the Plaza in the very center of Wrocław, on the Solidarity Square. This exceptional place not only gives the chance to be in the heart of Wrocław, surrounded by cafes, restaurants, clubs and the historical part of the city (including Quarter of Four Denominations, Main Square, museums), but also is accessible from all parts of Wrocław, so that nobody may be excluded from enjoying it.

Wrocław Organizing Committee invites you to visit The World Games Plaza, as the 10th edition of TWG will not be only "The best Games ever", but also "The best Fun ever"!

7. PROMOTION AND COMMUNICATIONS

a. Webpage

On November 2014, we were glad to present to you the next stage of promotion of The World Games 2017 in Wrocław. It's an event-dedicated website. This is the first phase of developing this website. Please mind that some sections and graphical works are still under construction to make this page more and more functional. Thank you for your comments, suggestions and ideas. We will closely cooperate in sharing news, logos and another useful information between official Partners, IF's websites and www.theworldgames2017.com

If you have got any questions or comments to the website, please do not hesitate to contact editor in chief, *Patrycja Wojciechowska*: patrycja.wojciechowska@theworldgames2017.com

b. Social Media and New Media

Over 2014 4Q timeline we managed to reach to over 6 mln Facebook users interested in TWG sports and over 15,000 active fans. We were focusing on each The World Games 2017 sport by creating theme days for sports. Also our content was shared by very powerful fanpages – for example: gymnastic legend Nadia Comaneci official fanpage (255k fans) , Official Rollerblade International fanpage (130k fans), the world's biggest "Finswimmer Magazine", Official "Arena" Greece fanpage, Official Rollerblade International fanpage (130k fans).

The year 2015 will be the main year for spreading global recognition of The World Games brand. Main promotional focus will be build up on parallel cooperation between our social media profiles, IWGA, and profiles of International Federations.

Also, we are going to start a pioneer sport promotion project connected with the new Virtual Reality Technologies. 360-degree panoramic video content will give users an innovative

perspective look from professional athletes' eyes. This will bring a lot of additional attention from global technological services. It will be great for wider scope of The World Games - Marketing and Strategic goals achievement.

For the year of 2015 we also plan the biggest promotion for each sport by cooperating with International Federations during their sport theme days on our social media profiles – by sharing each other content related to sport i.e. events, history of specific discipline, discipline rules, common contests etc. We can't wait your comments and proposals of cooperation. Please, do not hesitate to stay in contact *Piotr Łój*: piotr.loj@theworldgames2017.com

c. Activities and events

Promotion of TWG2017 during exemplary sports events in the last 3 months:

- Youth Karate League Championships
- Polish Climbing Championships
- Polish University Floorball Championships
- Polish Life Saving Championships
- Bowling World Cup
- European Tournament (friendly Games) – Ultimate Frisbee

***Did you know?***

- The International Olympic Committee has approved a recommendation resulting in closer cooperation with the International World Games Association (IWGA). Recommendation N° 6 says: The IOC and the International World Games Association should “... closely cooperate regarding the sports program composition and their respective evaluations.” The decision was taken unanimously during an Extraordinary Session of the IOC. The recommendation is a part of the Olympic Agenda 2020, a ‘strategic roadmap’ for the future of the Olympic Movement.
- In October 2014 three important agreements on the organization of The World Games 2017 were signed. Minister of Sport and Tourism, the President of the Polish Olympic Committee and the Mayor of Wroclaw, signed an agreement on cooperation in the organization of The World Games 2017. Also an agreement inaugurating the cooperation of the City of Wroclaw and the Lower Silesian Voivodeship was signed. The aim of the agreement was to combine organizational success with the long term value provided by the creation of optimal conditions for the popularization and development of a culture of physical activity among residents in the region.

d. TWG 2017 Mascot Contest

Bee, lion, dwarf, owl-cat and characters of Hansel and Gretel (Jaś i Małgosia) – these propositions were through to the final of the contest for the mascot of the 10th World Sport Games of the World Games 2017. In total, 620 works were entered to the contest, among which the jury selected 5 proposals for the final.

The jury include Piotr Socha - respected illustrator, graphic artist and designer of books and board games. Adam Ptak - vice president of Se-ma-for and Polish puppet and animation studio and film producer who is also involved in reviving drawing figures and Maja Włoszczowska, an outstanding mountain biking athlete and one of the most exciting sports personalities in Lower Silesia, a silver Olympic medalist and World and European Championships multimedalist.

The main award will be granted to authors of the work that will receive the biggest number of votes. and includes a sport-tourist package, comprising tickets for sport competitions at the level of world championship or Europe championship in Poland or in neighbouring country for all members of a competing team, a team supervisor and one group supervisor, costs of travelling both ways, accommodation, food and sightseeing.

Awards for Voters

There are also award for Internet users! Among all votes we will draw out 10 e-mail addresses. The awards are 10 packages include a voucher for 2 people for The Opening Ceremony of The World Games 2017 in Wrocław!

How to vote?

Go to <http://www.wroclaw.pl/sonda/maskotka/>, choose your 1 favourite project, type in correct captcha text and you will receive verification e-mail. Your vote will be valid after click on verification link. The final voting will last until 13th February. The results of voting will be announced on 16th February.

Thank you for your vote!

e. Cooperation with IFs

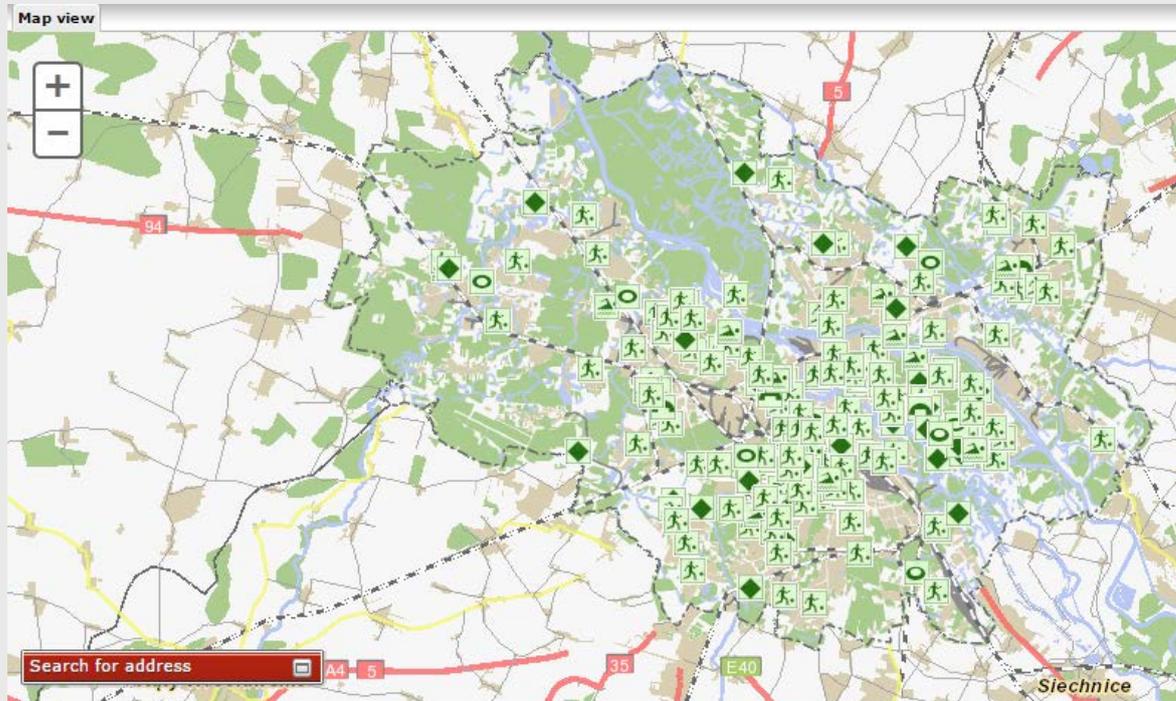

The mutual promotion of the Games and the Sports that create the Games is our priority. Therefore we not only encourage you to send us news on what's happening in your federation, but we are also open to provide you with TWG'17 Wrocław graphic materials. In the first quarter of 2015, WOC will prepare the Manual for the logo usage, which can be circulated by the sport federations for the noncommercial purposes. The Manual will specify the regulations of use as well as will provide the appropriate formats of the graphic sign.

Every federation interested in receiving this document should write to WOC' Media & Marketing Department a short description of how the logo will be used (i.e. during sport event; on the athletes outfit or equipment; on the federation/event website or social media site; on the printed materials). If you are interested in cooperate with us – please, do not hesitate to contact *Aleksandra Olszanowska*, aleksandra.olszanowska@theworldgames2017.com

On-line maps of Wrocław Spatial Information System

One of the key information about the city is information about space, spatial objects and spatial relations that occur between them. The collection, analysis and distribution of this type of information is the task of Geographic Information Systems (GIS). The aim of Wrocław Spatial Information System, that was being created for several years, is acquiring, processing and presenting data concerning the spatial information and accompanying descriptive information about the objects of our city. That is how an enormous amount of so far scattered data could be collected in one place and presented in a way that significantly simplifies any analysis. SIS is constantly being supplemented and updated, becoming the basis for planning all activities related to the management of the city, and on the other hand-providing interested parties with complete and multidimensional data about urban space. Interactive map is a very useful tool for communication in cooperation, instant information about traffic and venue situation. Most important features are possibility drawing / moderating and customization of maps for one's own purposes. Service is provided in English and German.

Access to map will be granted for every Federation and Partner.

<http://gis.um.wroc.pl/imap/?locale=en&gui=classic>

8. WROCLAW LEGACY PROGRAMME

For Wrocław Organizing Committee, The World Games are a beginning of a deeper process. Our ambition is to inspire people to change through sport. We trust, that perfect organization of The World Games 2017 will inspire the local community to doing physical activities, generating good emotions and bringing us closer to each other. We identify ourselves with Wrocław and its values. In our work, we focus on openness, honesty and professionalism, courageously and passionately following our own path of creating a new, Wrocław quality. We want to popularize the idea of physical activity as a way to a better life. Our success will make a good know-how, we'll pass on, and the people of Wrocław will become it's ambassadors.

Legacy Aims for The City of Wrocław

- To create a Wrocław's brand as a nation- leading sporting City
- To influence people to choose sport in any form
- To inspire children and young people
- To secure presence of international sport events in the City for years to come
- To demonstrate Wrocław is a creative, inclusive and welcoming place to live in, visit and for business.

News from Legacy

Wrocław's primary schools pupils participated in a special handball training. Unique, The fact that it was held under the masterful eye of a multiple representative of Poland Artur Siódmiak made it unique. Open classes started a series of free training sessions which are to be held 2 times a week during the upcoming school year. It is also a part of the PGNiG's Academy of Small Champions. Similar to this activity, but for younger kids, is the educational programme called "Mali Wspaniali". Participation of 1000 children from 20 nursery schools from Wrocław involved in the program. Initiatives perfectly fit in a mission of promoting physical activity during the run-up to The World Games 2017, so they have been held under its patronage.

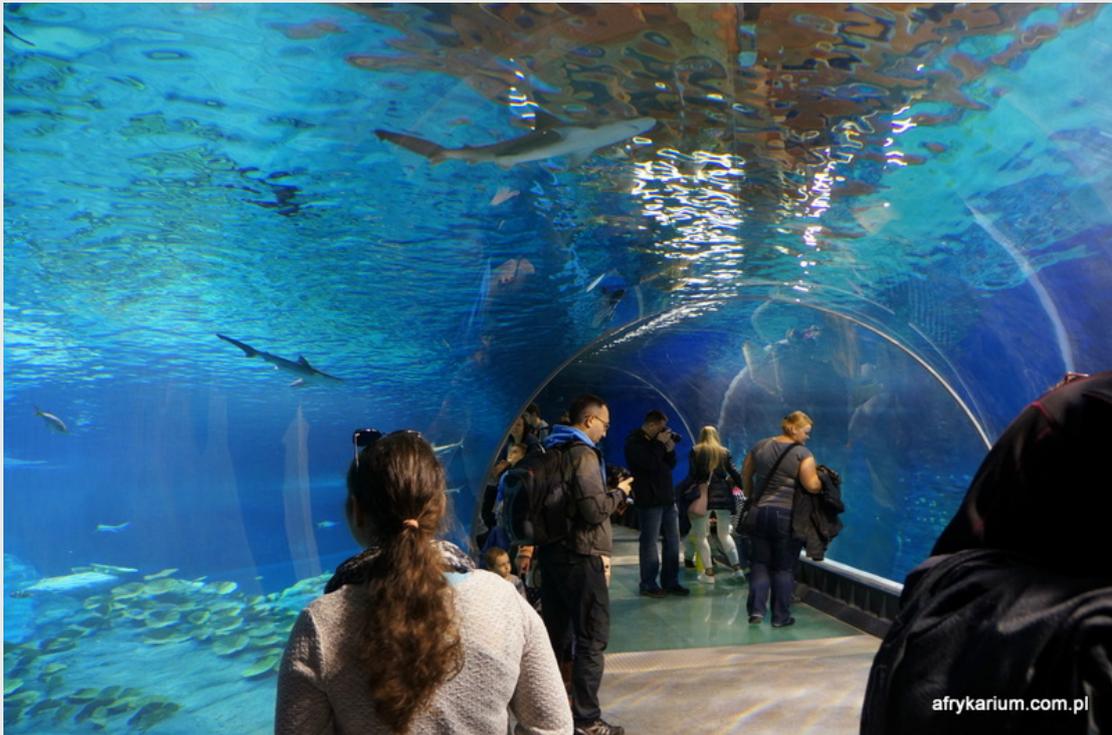

9. WROCLAW EXTRA

In each of our bulletins we showcase interesting facts about Wrocław.

a. Africarium

Motto:

"We are not able to save everything we would like to. But we can save much more than could be saved if we had done nothing". ~Sir Peter Scott

Africarium is a worldwide unique complex presenting various ecosystems connected with water environment of Africa. It's first oceanarium in Poland. In October 2014 Africarium was officially opened. Numerous aquaria, reservoirs and pools will display Red Sea coral reef, hippos, freshwater fish of Malawi and Tanganyika lakes, to mention a few. The depths of the Mozambique Channel, where sharks, rays and other large pelagic fish live, will be there to be admired from an underwater, acrylic tunnel 18 meters long. Next exposition will be devoted to the Skeleton Coast in Namibia, with penguins and brown fur seals. The jungle surrounding the river of Kongo will be inhabited by crocodiles, and manatees – amazing herbivorous mammals also called sirens. The Africarium complex, at the end of the construction works, will also include: conference hall, education hall, restaurant, observation deck, and souvenir store.

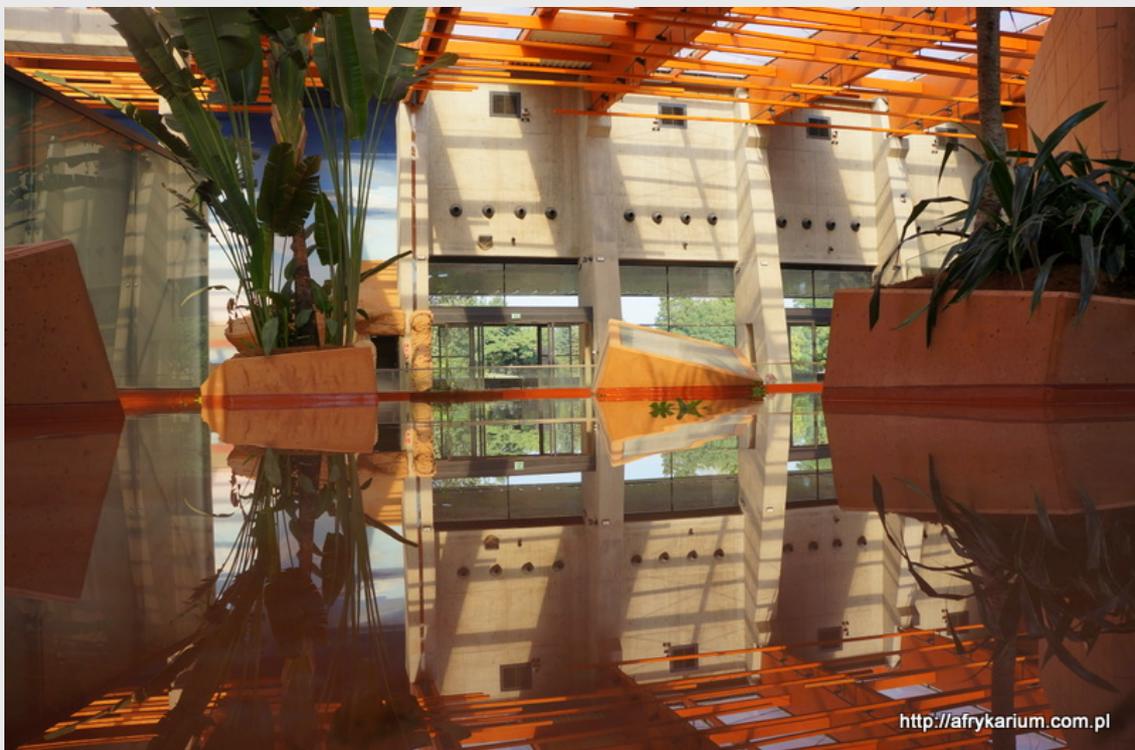

Africarium in figures

The Africarium building is 160 m long, 54 m wide and 12-15 m high. It was built on an area of nearly 1.9 ha and its total volume equals over 184,000 m³. The Africarium is a three-storey building, including one underground level. Usable floor area of the pavilion is about 9,000 m², utility area equals about 7,000 m², and outdoor exhibitions occupy the area of nearly 7,500 m². To construct the building, the total volume of 36,000 m³ of concrete and 4,800 t of steel was used, and 100,000 m³ of earth had to be removed. At the peak of construction works, during one shift there were about 700 workers who worked in a 3-shift system. In the whole Africarium water system, i.e. exhibition pools, filters, sludge tanks and kilometers of pipelines, there will be 15,000,000 liters of water (15,000 m³), which equals the volume of six Olympic-size swimming pools. The mass of sheer water alone in the Africarium is 15,000 tones, which equals the mass of 100 whales or 3,000 adult elephants. Exchange, i.e. filtering, of water in each of the pools takes about one hour. To "salt" The Red Sea basin and produce sea water, about 140 tones of salt is needed.

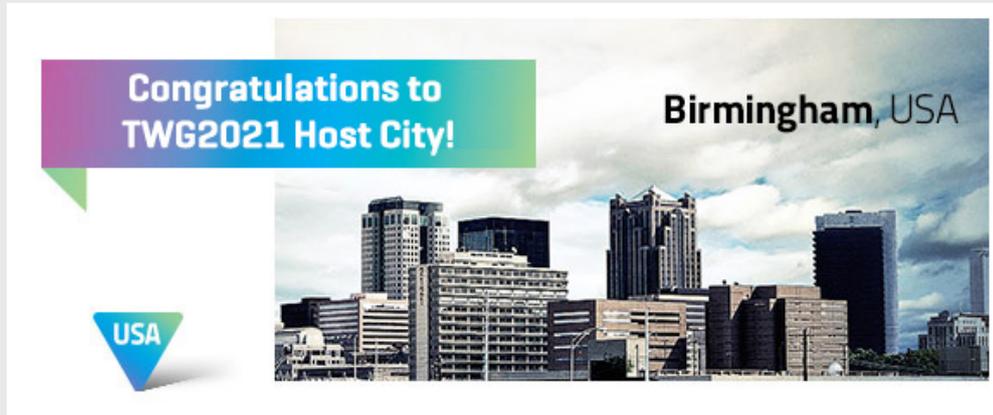

Africarium is located in Wrocław's ZOO, next to Centennial Hall.

See you ZOO! ☺

10. PREVIEW

Dear Bidding Team of Birmingham 2021,

We would like to wish you all the best in the process of preparation and delivering the Games in 2021. At the same time, we warmly invite you to visit Wrocław – if not earlier, than for sure in 2017 for the 10th edition of The World Games 2017!

- *Wrocław Organizing Committee*

The next bulletin is scheduled for **September 2015**.
