

Tutorial

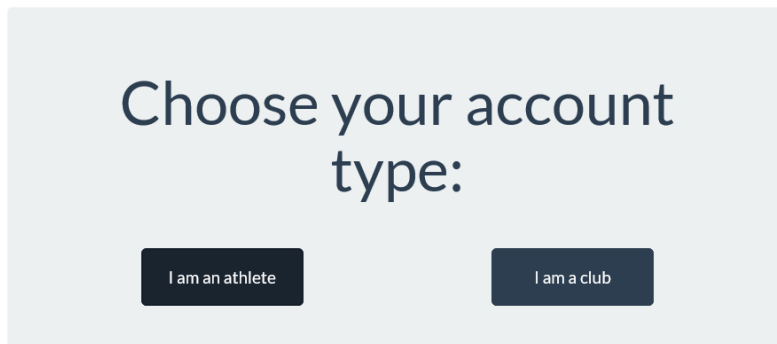

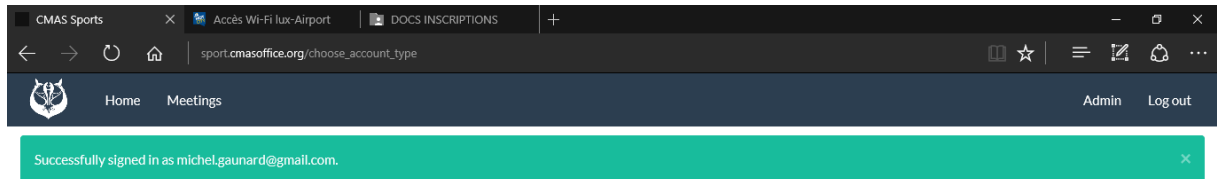

This little tutorial I made with screen shots to help you.

When you begin registration, you have to choice, register as athlete or register athletes through club. Even if you are alone but you swim in a club, make registration like club.

Otherwise, as individual athlete, it will be impossible to insert the name of club. You will swim without club according the rules.

The first step is to create your account with mail address and password like all type of account

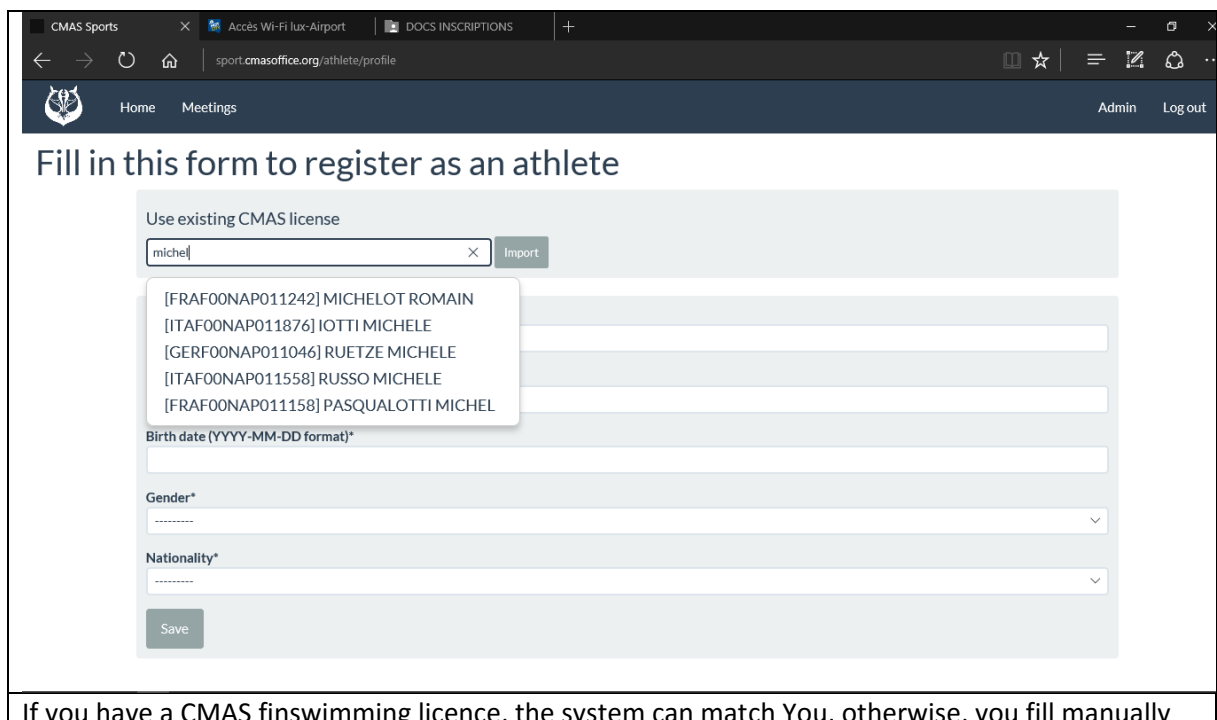

Attention: on this version, you can pay only by credit card. Possibility to pay through Paypal will exist for next event in future and unfortunately not for this.
