## **Information notice**

These results are modified from the original edited and uploaded just after competition because mistakes of surname for one Italian athlete, he participated to this Championships.

In fact, in the 50 m. Finswimming, 100 m. Immersion and the 50 m. Apnoea classifications, the name of Davide KONJEDIC figures there upon in place of Stefano KONJEDIC, who was really registered and present at the competitions.

The technical problem was because KONJEDIC are twins and:

1/ Italian registration made correct with good names

2/ The system edited the start lists with the good names. Thus, before competition, it was no problem. Also, it was the good athlete he was called by speaker.

The problem began after when data were imported into time keeping system and it's only at this moment that the system matched in this others database 3 times the twin brother, he was inside from previous competition.

3/ the false name appeared only when the results were printed.

Finally, the necessary changes were making and I precise that:

1/ No change time,

2/ No change ranking,

3/ No change Family name,

4/ No change date of birth

5/ Only the given name in 3 events
