

Tutorial (concern registration by clubs or federation)

Preamble: for any problem in the process, I stay at disposal by mail, michel.gaubard@gmail.com , phone +33 6 03 55 87 88.

I can assist you directly on your computer through the software Teamviewer (free for personal using) <https://www.teamviewer.com>

- Connect to <http://sport.cmasoffice.org>
- 1st connection
 - Creation of your account.
 - Like any account creation, you must proceed with one e-mail
- When connected
 - 2 choices. You are

✓ athlete (no member of one club). If you create an individual account, you can't move in a club after.

If you have valid CMA license, you can import directly data. **This step is important because it's at this moment the system defines if it must attribute you CMA licence or Temporary licence.**

If you have no valid licence, fill all fields manually.

Fill in this form to register as an athlete

Use existing CMAS license

Name	Where	When	Actions
3rd CMAS Finswimming World Cup Masters in Swimming Pool and Open Water 2016	Prague, CZ	June 11, 2016 - June 12, 2016	<div>Register</div>

For the clubs, to import athletes, the next steps are the most important to import CMAS licence or determine temporary licence for the Year.

Be careful on this page. If you want import athlete with CMAS licenses, please step 1. If data don't appear in the field "add existing CMAS licence, please click again. If you want import athlete with CMAS licenses, never enter data in fields under Add new athlete, otherwise, the system will give you automatically temporary licenses and you have to pay it again

The screenshot shows the 'Manage your athletes' interface. At the top, a green banner states 'Synced 64 licenses. Add them below from the "Add existing CMAS license" form'. Below this is an orange note about CMAS recall rules. A blue banner indicates 'You have 1 new athletes without a license code.' and provides a 'Confirm and generate license codes' button. The main area is divided into two sections: 'Add existing CMAS license' on the left and 'Your athletes' on the right. The 'Add existing CMAS license' section has an 'Import' button and a text input field. The 'Your athletes' section contains a table with columns: Last name, First name, Birth date, Gender, License, and Actions. The table lists one athlete: 'Toto' with first name 'titi', birth date '1997-01-01', and gender 'Male'. The 'Actions' column for this athlete has 'Edit' and 'Remove' buttons. Red arrows and numbers 1-5 point to specific elements: 1 points to the 'Sync national licenses' button; 2 points to the green banner; 3 points to the 'Import' button; 4 points to the 'Toto' row in the athletes table; and 5 points to the 'Add new athlete' form.

1 Click on the button to synchronize CMAS licences.

2 This banner informs you how many CMAS licences the system match

3 To import swimmers with CMAS licence, type the name or number of licence and the system matches immediately and click "import". If the system doesn't match, no valid CMAS licence exists. Contact your federation to check and know the reason because if you continue, the system will give automatically a number of temporary licence.

4 after clicking import, the data of related athlete go to the right part of the window.

5 If no valid licence, you can enter data of athlete for temporary licence and valid

After all athletes entered in the system, you can go to the next step to enter them in the related competition. On the main page, click on the button to register

You arrive on first page concerning male competitors registration.
