This form must be received no later than ten days before the beginning of the Championship.

3. PHOTO JURY

3.1. Role

To establish the placement of all photographers.

3.2. Composition

The Jury is composed of 7 (seven) people. One President and six members.

3.3. Visual Commission will appoint the jury. Jury members do not necessarily need to belong to a CMAS member federation. However, jury members will have to be qualified and recognized in the field of digital underwater photography.

3.4. Presence

The jury President should be present during the whole Championship, however only the technical delegate can rule to whatever alteration in rules and/or remote judging system.

3.5. Control Committee

3.5.1. The President of the Jury, Technical Delegate, and Director of the Visual Commission (or his/her representative) will form the Control Committee.

3.5.2. This Committee will check the photos after the Jury Vote received amongst the top 15 photos (by the competitors) if they belong to the correct category and if the competitor abided by the rules of the competition (i.e. did not manipulate the underwater environment, did not destroy the flora/fauna, etc.).

3.6. In the case of finding a situation, the Local Federation will contact and send a text message to the team captain (or the competitor if there is no team captain) for the photograph in question. (if a photo is submitted in the wrong category then that photo will be disqualified, the team captain will only be informed).

- 3.7. The team captain must attend a closed session with the Control Committee in 15 minutes. If he/she does not attend, the photo or the competitor will be disqualified according to the seriousness of the mistakes.
- 3.8. When a photo is disqualified the following photo in the ranking will be added to the top 15 list.
- 3.9. In a closed meeting with the Committee, the photo in question will be discussed by the captain (or the photographer) and the decision about the photo/photographer will be taken in private and the decision is FINAL.
- 3.10. Keeping anonymity**
- 3.10.1. The members of the jury are not allowed to be in contact in any way with the national teams until their work is done.
- 3.10.2. If there are contacts, the National Team will be disqualified.
- 3.10.3. Jury members will not be held responsible for the votes they have given, and competitors cannot contact the jury, technical delegate, or CMAS representatives after the event about the matter. Contacting may result in disqualification from the finished event or a ban from future CMAS events.
- 3.10.4. Jury members have to sign a document in which they accept the General Rules, the Specific Rules, and a Confidentiality agreement with CMAS.
- 3.11. Functioning,**
- 3.11.1. After the submission, the photos will be sent via the internet to the judges of the Championship. Judging will be performed online remotely; only the president of the jury will be on-site to vote.
- 3.11.2. Before sending the photos, the photo numbers/sequence/code will be changed in each category to keep the anonymity of the photographer.
- 3.11.3. Voting will be done in this order; Fish Category, Macro Category, Theme Category, Wide Angle Category, Wide Angle with a Model Category, and Creative Category.
- 3.11.4. Votes of the jury will be collected by the Technical Delegate, and the highest and the lowest points are eliminated, and the sum of the remaining votes will form the combined score of the photo. The jury is free to vote between 0 and 100 (included) points. After the collection of the votes, the rankings will be reviled from the highest points to the lowest ones. If in case of equal scores in the top 16 rankings president of the jury will be contacted again (if the president is not reachable her/his previous marks will be enough to set a ranking) only for those pictures that have the same points. The president of the jury's decision is final.
- 3.11.5. If pre-selected judges are not reachable during the time of the vote, the Director of Visual Commission will include spare names to the jury. Only under the condition that the spare jury members are not reachable, the President and members of the visual commission can act as spare jury members. For this purpose, members of the visual commission will be pre-nominated as spare jury members, and their turn of voting will be determined by a draw before the voting begins.
- 3.11.6. Article 3.11.4 will be applied no matter how many judges judged the photos.
- 3.11.7. After the voting, the names of the photographers will be added to the photos.
- 3.11.8. The top 15 of each category will be rated according to the following system;
25 Points 1 ranking, 20 Points 2 ranking, 16 Points 3 ranking, 13 Points 4 ranking, 11 Points 5 ranking, 10 Points 6 ranking, 9 Points 7 ranking, 8 Points 8 ranking, 07 Points 9 ranking, 6 Points 10 ranking, 5 Points 11 ranking, 4 Points 12 ranking, 3 Points 13 ranking, 2 Points 14 ranking, 1 Point 15 ranking, 0 Points for ranking 16 to the end.
- 3.11.9. Rank 1, Rank 2, and Rank 3 of each category will be awarded (1st Place Gold Medal, 2nd Place Silver Medal, 3rd Place Bronze Medal) with a medal.
- 3.11.10. The winner of each six categories will be named the "Underwater Photography World/Continent Champion in (Fish or Theme or Close Up, or Wide-Angle, or Wide Angle with a Model, or Creative) category" the corresponding category, i.e. World Champion in Fish Category, etc.
- 3.11.11. Points gathered at individual categories (starting from 1st to 15th ranking) will be added for each competitor. The collected score of the competitors from the same nation will also be combined to tell the grand score of that Nation.
- 3.11.12. The nation with the highest combined score (if the combined scores are equal on the top three then the Control Committee's decision will be final) will be awarded the "Unofficial Photography Championship Trophy". Hosting Federation will present this trophy. However, this standing or trophy will not be included in CMAS official results.
- 3.11.13. The shape and dimensions of this trophy will be approved by the Director of Visual Commission at least two months before the beginning of the Championship.

4. VIDEO JURY

4.1. Role

To establish the placement of all videographers.

4.2. Composition

The Jury is composed of min. 7 (seven) people. One President and six members.

4.3. Visual Commission will appoint the jury. Jury members do not necessarily need to belong to a CMAS member federation, but they will have to be qualified and recognized in the field of digital underwater videography.

4.4. Presence

4.11.2. Before submission, the video numbers/sequence/code will be changed in each category to keep the anonymity of the videographer.

4.11.3. All three categories will be judged according to the quality of the work, the technique used, and the entertaining value of the video (amusing, dramatic, wow effect, etc.).

4.11.4. Judges are expected to score according to the;

- Story: Here, the videographers are expected to impress the judges with underwater filming ideas and the marine richness of the competition area. The theme, plot, message, etc. are important.
- Flora and Fauna: For all categories, the amount of the species filmed are important. Integrating them into the script and the movie will be valued as well.
- Technique: Sharpness, the look of the images, camera work, etc. are very important for all three categories. For categories other than the Video Clip category videographer is also expected to integrate post-production techniques into the movie.
- Overall Impression and Artistic Merit: Effect on the viewer/audience.

4.11.5. The technical delegate will collect the votes of the jury, and the highest and the lowest points are eliminated, and the sum of the remaining votes will form the score of the video.

The jury is free to vote between 0 and 100 (included) points. After the collection of the scores, the rankings will be revealed from the highest score to the lowest one. If in cases of

equal scores in the top 16 rankings, the president of the Jury will be contacted again (if the president is not reachable her/his previous marks will be enough to set a ranking) only for those videos that have the same points. The president of the jury's decision is final.

- 4.11.6. If pre-selected judges are not reachable during the time of the vote, the Director of Visual Commission will include spare names to the jury. Only under the condition that the spare jury members are not reachable, members of the visual commission can act as spare jury members. For this purpose president and members of the visual commission will be pre-nominated as spare jury members and their turn of voting will be determined by a draw before the voting begins.
- 4.11.7. Article 4.11.5 will be applied no matter how many judges the judging is done.
- 4.11.8. After the voting, the names of the videographers will be added to the video files.
- 4.11.9. The top 15 videos will be rated according to the following system;
25 Points 1 ranking, 20 Points 2 ranking, 16 Points 3 ranking, 13 Points 4 ranking, 11 Points 5 ranking, 10 Points 6 ranking, 9 Points 7 ranking, 8 Points 8 ranking, 7 Points 9 ranking, 6 Points 10 ranking, 5 Points 11 ranking, 4 Points 12 ranking, 3 Points 13 ranking, 2 Points 14 ranking, 1 Point 15 ranking, 0 Points for ranking 16 to the end.
- 4.11.10. Those votes will be for ranking from 1 to 15.
- 4.11.11. Rank 1, Rank 2, and Rank 3 will be awarded (1st Place Gold Medal, 2nd Place Silver Medal, and 3rd Place Bronze Medal) with a medal.

The hosting federation will give this trophy. However, this standing or trophy will not be included in CMAS official results.
- 4.11.15. The shape and dimensions of this trophy will be approved by the Director of Visual Commission at least two months before the beginning of the Championship.

5. CMAS Technical Delegate

5.1. Role

Organize and run the "Technical Meeting", and control the hosting federations' handling of the Championship. Being in charge of the registration, card formatting, photo/video delivery, and jury presentations examine complaints put forward and deliberate on them.

5.2. Appointment

CMAS Technical Delegate is appointed by CMAS BOD under the proposal of the Visual Commission.

5.3. Working Procedure for Complaints

A complaint can be put forward if and only if;

- 5.3.1. It is lodged by the team captain (or by the photographer/videographer if the team has no captain),
- 5.3.2. It is written in French, English, or Spanish,
- 5.3.3. It is made within 15 min. after the announcement of the results and accompanied by a deposit of 100 (one hundred) Euros which will be returned immediately if the complaint is declared valid or if the claim is withdrawn within 45 minutes following the announcement of the claim.

5.4. Appeal

There is no appeal against the decisions taken by the CMAS Technical Delegate, except for new events. The decision about the complaint will have to be communicated in 6 Hours and in writing, immediately after the end of the meeting.

6. TECHNICAL MEETING

- 6.1. A meeting should be organized the evening before the practice day, and this meeting should include the following participants:
 - 6.1.1. The head of the Hosting Organization Committee,
 - 6.1.2. Persons in charge appointed by the Hosting Federation (diving boats, doctors),
 - 6.1.3. CMAS Technical Delegate,
 - 6.1.4. The Director of the CMAS Visual Commission,
 - 6.1.5. Team captains and competitors,
 - 6.1.6. The President of the Jury.

6.2. Purpose of the meeting

- 6.2.1. Although details of the Championship will be explained at this meeting, competitors are expected to have read and know the General and Specific rules of the Championship as well as CMAS rules.
- 6.2.2. Informing the competitors about the distribution of the teams on the boats and allocation (by draw) of the rotation of the boats on dive sites. The draw will have to be held under the direction of the CMAS Technical Delegate.
- 6.2.3. Announce all the information concerning;
 - 6.2.3.1. Technical matters.
 - 6.2.3.2. Time schedules and means of transport.
 - 6.2.3.3. Safety measures.
 - 6.2.3.4. Organization of the dives and handling of the photos.
 - 6.2.3.5. Different categories to be judged.
 - 6.2.3.6. Details of the Control Committee and the Jury System.
 - 6.2.3.7. Guidelines for protocol, medal ceremony.

7. ORGANIZATION OF DIVING COMPETITIONS

- 7.1. Each national team will be allocated to boats equipped with all the equipment and safety materials specified in the relevant laws of the hosting country. Boats must remain at the dive site while any competitor is in the water. Boats will only be filled at around 3/4 of full capacity to accommodate the competitors comfortably.
- 7.2. Maximum and minimum tank pressures will be announced at the technical meeting. At the beginning of each dive having more pressure than the announced limit will be considered an unfair action and will result in immediate disqualification from the Championship. Tank pressures will not be more than 220 bars at the beginning of the dive and will not be less than 20 bars at the end of the dive. Having less pressure (at the end of the dive) than the announced limit will result in the disqualification of that dive. Since the local laws will determine tank pressure limits, these limits stated above can be altered by the local federation provided that they don't extend the limits stated above.
- 7.3. Any changes to the announced schedules will be approved by the CMAS Technical Delegate and displayed daily to competitors on a dedicated notice board or digital platform used to communicate with the competitors.
- 7.4. The maximum time of possible diving at each dive site is 90 minutes. At the end of the prescribed time, the team must be next to the boat with safety stops completed. Two dives should be planned per day for the two competition days.
- 7.5. Each competitor and assistant will be given at least two cylinders per competition day.
- 7.6. Nitrox dives are allowed only if the local federation can supply Nitrox to all the competitors and if the competitors have the relevant Nitrox certificate (must be declared at the registration).
- 7.7. The tank capacity of the scuba tanks provided must be the same or equal for all the competitors.
- 7.8. The hosting federation will announce four diving sites + 2 alternative dive sites (bad weather alternatives) for the championship in the specific rules. All competitors should dive in turns at the same four diving locations chosen in the draw.
- 7.9. If the first or the second day of the Championship can not begin because of bad weather conditions then the photos/videos taken during the other sessions will be valid. Also, any competition that has already started but has been interrupted, because of unexpected circumstances, can be considered valid only under the decision of the CMAS Technical Delegate.
- 7.10. Only the CMAS Technical Delegate is entitled to decide the interruption of the Championship.
- 7.11. To avoid any contention during the Championship, the team captain (if one exists) will not dive during the days of the competition, his/her function is to assist his/her team on the surface.
- 7.12. Competitors without an assistant will not dive in pairs. Two competitors can not be buddies with each other. Since solo dives are not allowed, the local federation must supply a buddy for a competitor without a buddy at its cost. However, the local diver is only responsible for the safety of the competitor, he/she can't be a model and/or act as a dive guide to find the location of photo/video subjects in any way and can not receive a medal. Working against this rule is a reason for disqualification from that dive.
- 7.13. In case of any unexpected circumstances (for example, the assistant is unable to dive) confirmed by the official doctor, the captain can play the role of assistant for a photographer/videographer. Article 7.11 will not apply in this case.

7.14. Teams and their entourage are not allowed to bring Mobile Phones, Tablets, External Hard Drives, or Computers to the dive center or the competition boats **for reasons other than using their underwater filming functions and in flight mode**. Finding a device is subject to immediate disqualification.

8. SPECIFIC RULE

- 8.1. It includes the competition schedule and participation costs for competitors, assistants, captains, and any possible accompanying staff (lodging, board, dives, local transports) as well as any possible extra charges (i.e. additional nights).
- 8.2. It defines the ambient conditions associated with this competition (e.g., the average temperature of the water, visibility, etc.) and the six diving sites described in Article 7.8.
- 8.3. It details the name, address, telephone, and e-mail of the contact person, for any request for information.
- 8.4. It defines the digital cards to be brought by the candidates according to the camera to be used.
- 8.5. It defines the Local Government's and Local Federation's requirement of test results and hygiene standards to prevent contagious diseases.
- 8.6. Shooting interval and the location of the land take.
- 8.7. Timetable for delivering and editing videos.
- 8.8. Location of the editing room

PHOTO

- 8.9. It details the six categories for individual classification. These categories are:
- **Fish Category** (Fish photo only involving attitudes of these creatures) (ex: turtles, octopus, starfish, mammals, etc. are not accepted) Details of a fish are permitted if it is possible to define the fish onto its species/name and its biotope. Photos of this category can't have a model posing in this picture however due to the conditions of the dive site and lens used if other diver/divers are visible in the frame it is not a reason for disqualification.
 - **Photo with a theme Category** as the main subject (Each Championship will have a subject or theme). The theme/subject will change for each Championship and will be defined by the Visual Commission). Photos of this category can't have a model posing in this picture however due to the conditions of the dive site and lens used if other diver/divers are visible in the frame it is not a reason for disqualification.
 - **Close-up photo Category** without a theme (Macro or close-up photo of all subjects except the theme of the Championship as the main subject. Details of a fish or the theme are not accepted. Photos of this category can't have a model posing in this picture however due to the conditions of the dive site and lens used if other diver/divers are visible in the frame it is not a reason for disqualification.
 - **Wide-angle without diver Category** (a wide-angle photo without any diver/model showing the beauty of the natural underwater environment including fauna and flora. The theme can not be used in this category as the main subject. Photos of this category can't have a model posing in this picture. If other diver/divers are visible in the frame, it is a reason for the disqualification of the photo.
 - **Wide-angle with a diver Category** (a wide-angle photo including a diver who is the assistant). The theme can not be used in this category as the main subject. A freediver can not be used in this category. (see article 2.14.).Due to the conditions of the dive site and lens used if other diver/divers are visible in the frame (other than the assistant posing), it is not a reason for disqualification
 - **Creative Category** this category has no boundaries provided that the photographer does not contradict general/specific rules (i.e.using a freediver, etc.). Photographs are expected to be original, creative, and artistic. Cropping is only allowed in this category. The use of artificial objects is only allowed in the Creative Category.

The "artificial" object is defined as: Decorative materials that are not a part of diving or photography/videography equipment that may not harm the environment or others in any way. The use of artificial objects needs to be approved before the competition dives by the technical delegate as the size of the object may not be suitable for the operation.

VIDEO

- 8.10. It defines the three categories and details of video shooting and editing which are;
- **Movie Category** The video submitted to the Movie Category can have a maximum length of 4 minutes (included) and a minimum of 2 minutes. Videos less than 2 minutes or longer than 4 minutes will be disqualified. The proportion of non-underwater images and animations, including the title and closing credits, will not be more than 30%. The land image will prevail in the combination of underwater and non-underwater images in the same shoot. Delivering a video out of this percentage will result in the disqualification of the video. Participants can include artificial objects (as described above), audio files (music, voice-over, sound effects), animations, effects, infographics, titles, and fixed images in his/her project. However, the sound effects, visual effects, voice-over, animation, and music must be free from copyright.
 - **Documentary Movie Category** The video submitted to Documentary Movie Category can have a maximum length of 120 seconds (included). Videos longer than 120 seconds will be disqualified. The proportion of land-takes including the title and the closing credits, will not be more than %30. The land image will prevail in the combination of underwater and non-underwater images in the same shoot. Delivering a video out of this percentage will result in the disqualification of the video. Animations and artificial objects are not allowed in this category. Participants can include audio files (music, voice-overs, sound effects) titles and fixed images in his/her project. However, the sound effects, visual effects, voice-over, and music must be free from copyright.
 - **Video Clip Category** The video submitted to Video Clip Category can have a maximum length of 60 seconds (included). Videos longer than 60 seconds will be disqualified. Participants can include audio files, however visual effects, titles, images, and artificial objects are not allowed. The video must be without effects, color correction, and opening or closing credits. Editing allowed in this category is cutting and pasting the footage parts one after the other and including audio files. The Video clip must have three parts; fish, macro, and wide angle. The clip is the combination of these three parts in any order, it must be filmed on three separate footage. Land takes or half-and-half shots are not allowed in this category.

9. PHOTO RULES

- 9.1. The Championship will be done with digital cameras. Cameras with radio interfaces like WLAN or Bluetooth are allowed in the Championship however, their WLAN and Bluetooth functions must be turned off at all times. - 9.7. It is forbidden to erase photos. Erasing a photo is punished by excluding the photos of that dive from the Championship.
- 9.8. Photographers can use any type of memory card, he/she likes to use. The hosting federation has to use card readers for all kinds of possible memory cards. However, if the local federation does not have the required card reader for a specific card, then the competitor must provide the card reader needed.
- 9.9. Even if it is possible to use more than a single memory card in a camera, it is not allowed to use more than one card. Only one card slot can be loaded with a memory card.
- 9.10. On every competition day the CMAS Technical Delegate will control the;
- 9.10.1. Formatting of the marked memory cards in the participant's camera
- 9.10.2. Closing of the underwater housing with a seal.
- The boat captain or a controller of the boat is responsible for the cameras. If in case of an immediate opening of the housing, one of the above must be present during the cleaning and drying. The boat captain or the controller will report the situation to the Technical Delegate.

- 9.11. Submission to the Competition. Under the supervision of the CMAS Technical Delegate;
- 9.11.1. At the end of the competition day, the underwater housing is to be opened under the control of the CMAS Technical Delegate. The storages have to be given to the host federation's operator who has to copy all the .JPEG images from the memory card to external storage (e.g. computer, notebook, external hard disc, etc.) The folder of the copied images will be renamed with the number of participants.
 - 9.11.2. The competitor gets back his/her memory card, to search for the images he/she likes to submit to the Championship. At the agreed time while submitting the image, he/she has to declare the image number to the host federation's operator.
 - 9.11.3. The host federation's operator opens the submitted images on the computer, and the photographer confirms the selection. (Rotation and flip of the images are accepted).
 - 9.11.4. For ranking or voting, the jury uses only these images. This makes sure that the images are not manipulated before submission.
 - 9.11.5. Although there are six available categories, photographers can only submit photos to four categories (compete in four categories only).
 - 9.11.6. Out of these four categories, one category is obligatory to be a wide angle (wide angle or wide angle with a model) category. The photographer will decide in which category he/she is going to compete at the time of the submission of the images.

9.12. Manipulation of images

- 9.12.1. All digital manipulations "in camera" including multiple exposures, double exposure, active D lighting, sharpness, saturation, color balance (whatever the camera software allows), etc. will be allowed before and after the shot is taken but when the competitor is still under the water.
- 9.12.2. Photos can be edited underwater while holding the mooring line. However, the photographer should be under the water breathing from his tank at all times (except for changing the cameras, lenses, etc.) he/she can't stay on the surface (or use a snorkel) while editing.
- 9.12.3. Mooring lines are also used by other competitors for safety stops. Photographers who are editing photos on the line cannot disturb other divers who are completing their safety stops. Disturbing other competitors on purpose may result in the disqualification of one or both of the teams.
- 9.12.4. Cropping of the images is not allowed in all the categories except for the creative category.
- 9.12.5. In half-and-half images, a relevant part of the image should be under the water.
- 9.12.6. A competitor can not use the same foreground in more than one image (multiple exposure, double exposure, or regular photos). If the Control Committee realizes the use of the same foreground or background of the same competitor, the image in the following category will be disqualified. If the fact was not discovered during the control, the votes would be erased after the final results are announced.

9.13. Additional usage of digital images

- 9.13.1. After the choice of images by the participant, all other images have to be deleted from the external storage of the hosting federation. The Director of the Visual Commission will keep all the photos (also those deleted by the hosting federation) and the votes of the Championship for archival purposes.
- 9.13.2. Photos, submitted to the Photo Jury will be the property of CMAS and will be used freely without payment but under the name of the photographer for promotional activities of CMAS or affiliated associations and national federations.
- 9.13.3. Images shot on the practice day and the competition days can't be published or shared on social media channels. Sharing these images before the end of the closing ceremony is a reason for disqualification from the Championship.

10. VIDEO RULES

- 10.1. The competition will be done with digital cameras and mobile devices. Devices with radio interfaces like WLAN or Bluetooth are allowed in the competition. However, their WLAN and Bluetooth functions must be turned off and Flight Mode must be "on" at all times. It is not permitted to withtake multiple cameras underwater. Further cameras can be taken along with the boat. The memory card can be inserted into other cameras only in front of the judges of the organizing committee.
- 10.2. The videographer can use any memory card he/she likes to use. The hosting federation has to use card readers for all kinds of possible memory cards. However, if the local federation does not have the required card reader for a specific card, then the competitor must provide the needed card reader.
- 10.3. Even if it is possible to use more than a single memory card in a camera, it is not allowed to use more than one card. Only one card slot can be loaded with a memory card.
- 10.4. Mobile Devices (such as mobile phones and tablets) will be treated as memory cards, and their storage area will be observed by the Technical Delegate.

- 10.5. Any artificial low-voltage light or other accessory is allowed to use for filming.
- 10.6. Digital cameras, mobile devices, and accessories that are admitted must be neither polluting nor dangerous.
- 10.7. It is compulsory to record the infographics and fixed images during the days of competition.
- 10.8. Every competition day the CMAS Technical Delegate has to control;
- 10.8.1. Formatting of the marked memory cards in the participant's camera or mobile device.
- 10.8.2. Closing of the underwater housing with a seal.
- The boat captain or a controller of the boat is responsible for the cameras. If in case of an immediate opening of the housing one of the above must be present during the cleaning and drying. The boat captain or the controller will report the situation to the Technical Delegate.
- 10.9. Submission to the Competition. Under the supervision of the CMAS Technical Delegate;
- 10.9.1. At the end of the competition day, the underwater housing is to be opened under the control of the CMAS Technical Delegate. The storage must be given to the Host Federation's operator who has to copy all the video. The folder of the copied images will be renamed with the number of participants.
- 10.9.2. The videographer gets back his memory card to edit at the announced time by the organization committee.
- 10.9.3. Once the participants received the cards, hard disks integrated camera, etc., he/she can begin respectively to continue the post-production of the video in the hours determined by the organization.
- 10.9.4. While delivering the video at the announced time the host federation's operator opens the submitted video on the computer, and the videographer confirms the selection.
- 10.9.5. For ranking or voting, the jury uses the edited video; however, delivered videos will be kept for proof purposes.
- 10.9.6. Although there are three available categories, videographers can only submit videos to two categories (compete in two categories only).
- 10.9.7. Out of these two categories, one category is obligatory to be a Movie (Movie or Documentary Movie) category. The videographer will decide in which category he/she is going to compete at the time of the submission of the videos.
- 10.10. Filming and Editing**
- 10.10.1. Before the first immersion, the Technical Delegate will make sure that all the memory cards and hard disks, etc., integrated into the camera are blank. It is the responsibility of the competitor to make sure that the Technical Delegate controls the camera, and his/her formatted card and changes the date before the immersion. Having a previously taken image on a memory card is a reason for disqualification. For mobile devices, this rule applies as; video storage of the device will be observed and the beginning of the competition dive will be marked by the technical delegate.
- 10.10.2. At the beginning and at the end of both immersions, the participants must film a "control take" with the judge visible in the video.
- 10.10.3. For the non-underwater takes (land takes), the participants can have unlimited time to film. It will be allowed during the training day and the days of the Championship. For non-underwater takes it is not allowed to film in pools, swimming pools, or underwater of any kind. The memory card for the non-underwater takes will be different from the cards for the underwater takes. Mentioned cards will be formatted, marked, and a control take will be arranged before the practice day.
- 10.10.4. If the same mobile device is to be used on the land takes then the device must be controlled and marked after the technical meeting by the technical delegate.
- 10.10.5. The non-underwater takes (land takes) will be downloaded and verified by the organization in the editing room before being used and edited by the participants. The deadline for delivery to the organization of these takes will be during the first hour of the last day of editing.
- 10.10.6. The post-production can only be done at the designated area that the organization committee has announced and only by the videographer and/or the assistant diver. Editing done by others but not the team members (captains can not edit) will be punished by the disqualification of the team.
- 10.10.7. Organization Committee will announce the editing schedule. However, editing time on the first day amounts to 3 hours and on the second day to 5 hours.
- 10.10.8. On the second day of the competition, the editing room will remain open all day until the preannounced video submission time. Competitors can edit their videos at any time during

that day but their editing interval can not be more than 5 hours and must finish at the announced time.

- 10.10.9. The organization will designate an edit room where the participants will leave their post-production equipment from the first day of the Championship (practice day). This room will be open during the days of the Championship according to a timetable determined by the organization. It will remain locked for the rest of the time. Bringing or removing editing equipment, including laptops or storage units like external HDD or memory cards, is strictly forbidden.
- 10.10.10. Competitors will work with their editing equipment; the lack of such equipment is not the responsibility of either CMAS or the hosting federation.
- 10.10.11. The local organization team will fix a deadline time after the 5 hours on the second competition day as a limit to upload and/or deliver the videos.
- 10.10.12. The maximum resolution for the video submission is Full High Definition (1920x1080 pixel) quality. Higher resolutions will not be accepted and will be disqualified.
- 10.11. The use of opening (or closing/end) titles that can identify the team or its nationality is forbidden for all video categories. Also, the use of subtitles in the videos is not allowed.
- 10.12. Finished films must be exported to a digital video file (like MP4) and loaded onto a USB stick.
- 10.13. The use of copyright-free files is the competitor's responsibility. CMAS can/will not be held responsible for the mentioned files. If in case of a copyright restriction lawsuit, CMAS reserves the right to reflect the losses it faces to the competitor and his/her National Federation.
- 10.14. **Additional usage of digital images**
 - 10.14.1. After the submission of the video by the participant, all other video has to be deleted from the external storage of the hosting federation.
