II SPEARFISHING WORLD CHAMPIONSHIPS FEMALE – 2023

PRESENTATION

Laredo (Cantabria) known as the captain of the Costa Smeralda, combines sea, beach, landscape, history, art and gastronomy.

A town of seafaring tradition that has been able to adapt to modern times and offers all the luxury of services to citizens and visitors.

It has a privileged enclave, which made it one of the most important ports of Castile already in the twelfth century, continues to be a strategic advantage for its economic and cultural activity, being located equidistant between the capitals Santander and Bilbao, 30 minutes and 50 minutes by car from their airports respectively.

It has a clean access from the Cantabrian Highway, the A-8, which connects with the entire Cantabrian road network, with two entrances in both directions. In turn, this highway joins the plateau and the Ebro corridor, becoming an axis that guarantees communications from any corner of the country.

It is a cosmopolitan town, open to tourism, which has grown looking at the sea. In its more than 8 kilometers of beach, divided into 4 very different beaches, one can find the rest you need.

The seafaring tradition of Laredo has reached our days, and is reflected in the activity carried out by the fishing port of the town and in the modern marina, both located in the urban area.

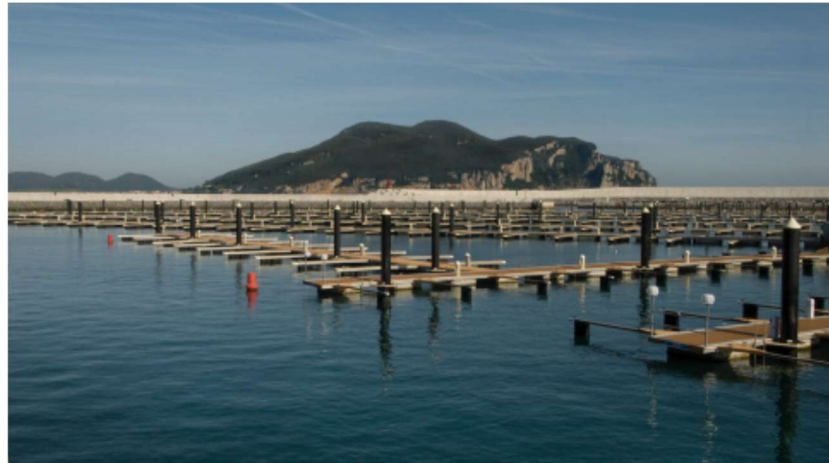

The new marina of Laredo is a modern marina, which is destined to become one of the great nautical facilities of the Cantabrian, has 857 berths, service area and technical area, prepared for boats up to 20 meters in length. One of its advantages is the comfort of its pontoons, with wide and large aisles that facilitate mooring. It has all the services required by an installation of these characteristics, including a large parking lot with about 400 spaces, large changing rooms and shower area, fixed installation with jetty for fueling, travelift with load capacity of 50 tons and with

II SPEARFISHING WORLD CHAMPIONSHIPS FEMALE – 2023

dimensions of 26 meters long by 6,10 wide, dry marina of almost 4.000 square meters covered and a hull area of 3.780 square meters, among others.

Being located the marina in the urban area of the town, Laredo offers all the external services that the navigator may need, health centers, hospital, restaurants, beaches, leisure areas

In addition, we also have the Valdecilla Hyperbaric Chamber, the only Hyperbaric Chamber in a public hospital in Spain, it is the only one that has permanent specialized medical coverage and is a reference for patients from other autonomies. It is also a national reference center and of different public entities such as Civil Protection, Maritime Rescue, Federation of Underwater Sports, etc.

After offering all kinds of facilities and infrastructures on land, Laredo and its organizing committee have extensive experience in holding spearfishing events, as evidenced by the national championships played in Cantabrian waters in the years 2017 – 2021.

Laredo offers beautiful cliffs and fishing areas that move spearfishermen from the same shore to the depths that athletes can get, because its wide variety of species are abundant in all depths. Different spearfishing techniques can be applied to its rocky bottoms full of life and movement.

We count on the institutional support for this championship by the Government of Cantabria, since in 2023 the Monastery of Santo Toribio de Liébana will open its Door of Forgiveness to the world again, which only opens when the feast of the Apostle Santiago on July 25 falls on a Sunday. This coincidence occurs in a different interval of years every 5 or 6 years, and sometimes, you will have to wait up to 11 years to be able to live the Holy Year.

The Jubilee Year has been called "Event of Exceptional Public Interest". As every Holy Year, the Government of Cantabria will organize a series of religious and cultural activities aimed at valuing the historical, social, political and religious

II SPEARFISHING WORLD CHAMPIONSHIPS FEMALE – 2023

importance of the region of Liébana, with the Monastery of Santo Toribio as a central point.

The environment, access, services and characteristics of the Villa make it the perfect venue to host a competition of the magnitude of WSC2023, which will help not only to promote the practice of spearfishing and underwater activities, but will also serve to show the world a spectacular seabed that is still to be discovered.

II SPEARFISHING WORLD CHAMPIONSHIPS FEMALE – 2023

DEVELOPMENT OF THE COMPETITION

The 2nd edition of the CMAS Spearfishing World Championship Female will take place during two consecutive days of competition of five (5) hours each, in the waters of Laredo, in Cantabria (Spain).

The competition will be held in individual boats.

The zones where the Championship will take place will be divided into three (3) areas called "Competition Zones": two (2) main zones, in which the competition will take place, and one (1) reserve zone, in case adverse weather and maritime conditions do not allow people and boats to operate safely in the main areas. These zones shall be referred to as Zone A, Zone B and Reserve Zone.

The zones will be the same for the male and female categories **simultaneously**.

The order of use of the competition areas will be established on the eve of each day of competition, depending on the conditions of the sea. Only the CMAS Technical Delegate and the Competition Director can jointly decide to change the order of competition zone, due to adverse weather and sea conditions or any other cause of force majeure. In case of disagreement between the two, the decision of the Technical Delegate of CMAS will prevail.

In the event of force majeure or bad weather or sea conditions, the Organization may reduce the duration of the competition for safety reasons; in this case, to be valid for the purposes of the Championship, the competition session must last at least 2/3 of the scheduled time. The decision to completely interrupt a day of competition or partially suspend the current race within one day rests with the CMAS Technical Delegate and the Competition Director. In case of disagreement between the two, the decision of the Technical Delegate of CMAS will prevail. The Championship will be considered valid if at least one valid competition day has been completed.

Competitors may only use the boats made available by the Organizing Committee or their own authorized boats at the time of registration, which will be considered official boats. During the two days of competition, only official boats and those duly authorized by the CMAS Technical Delegate, at the proposal of the organization, may stop in the competition area. All other vessels will not be able to access this area.

Each national representative shall be equipped with a set of three (3) official vessels. Considering that boats can be of different sizes and powers:

- ⇒ The available boats, except for competitors with their own boats, will be authorized by the organization, they will be distributed in series of three boats according to criteria of equity and correctness.
- ⇒ The series of boats will be allocated by draw, which will be held during the captain's meeting.
- ⇒ The distribution of the boats assigned to the competitors will be made by the captains of the teams.

II SPEARFISHING WORLD CHAMPIONSHIPS FEMALE – 2023

Team captains **only** will be able to position themselves on any of the three boats assigned to their athletes, **masculine or female**. **Captains are not allowed to be alone in independent boats in the zone of competition.**

- In the event of a breakdown, the vessel shall be replaced. Complaints regarding replacement ships will not be accepted.
- National teams with their own boats must submit a written notice at the time of registration. Boats can have a maximum power of 130 horsepower/CV. The commissars of these boats will be assigned by the organization.
- The Technical Delegate of CMAS will select the commissioners for the Spanish competitors among the available commissioners of the other nations.
- Each official vessel shall be assigned the same competitor reference number. Competitors cannot change boats.

In compliance with the provisions of art. 6.1.2 of the International Spearfishing Regulations CMAS, the inspection period of the competition areas is established at fourteen (14) days before the start of the Championship: from August 26, 2022 (inclusive) until September 8, 2022 (inclusive). During this period, it is forbidden to fish, transport spearguns on the vessel, use breathing aids and / or diving equipment other than those of free diving, as well as use of scooters or any other methods of underwater propulsion. Violation of this rule will result in exclusion from the Championship. If the infraction is committed by any member of the national Delegation, the entire team will be disqualified.

In the official scouting days of the competition zones, the national teams will be responsible for managing the means of transport used for this purpose.

It is Forbidden for all competitors, members of the delegation, stewards (commissars), captains, companions, and any other persons associated with them, to access the competition zones the “closed day” (September 8, 2022), before the start of the competition. Violation of this rule will result in exclusion from the Championship.

The Organization shall carry out random checks (search) on board of boats also during inspections. This is to verify that everything is in compliance with norms.

On zone scouting days boats may be inspected by the police or other competent authorities.

The organizers recommend to strictly comply with the fishing law and regulations of the community of Cantabria. Any violation of the law will result in the expulsion from the competition and the confiscation of fishing equipment, as well as the application of administrative and economic fines.

Athletes who want to fish with spearguns outside the competition zones stipulated in the Regulations, and in waters of the Autonomy of Cantabria, must apply to FCDAS (email: pescasubmarina@fcdas.com) for a license processing in the Government of Cantabria.

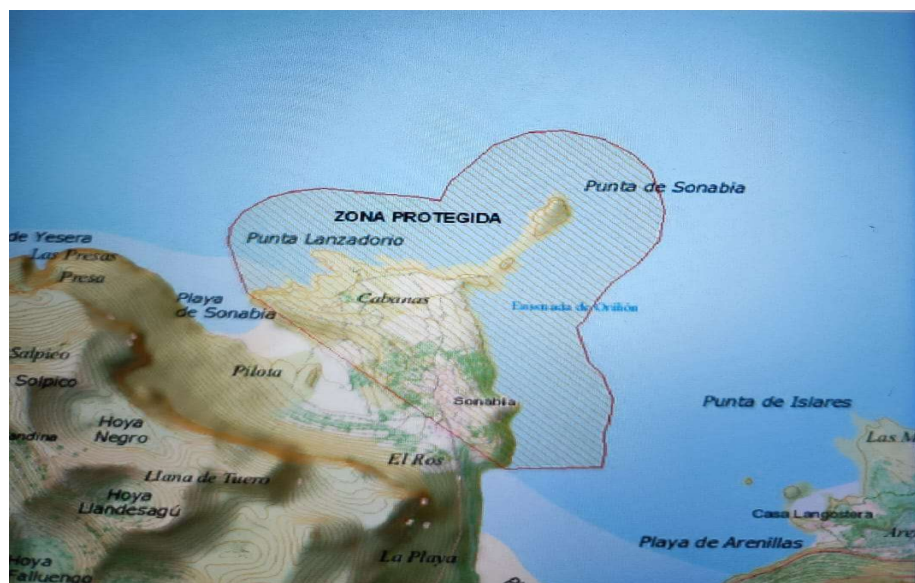

II SPEARFISHING WORLD CHAMPIONSHIPS FEMALE – 2023

You will need to send a copy of the passport, medical certificate, and a copy of the funding of € 25, the cost of the license, which must be made to the bank account:

ES34 - 0182 - 5884 - 3802 - 0269 – 2693.

BIC: BBVAESMM

There is a protected zone near the competition area , where you cannot fish and it is as follows:

During the course of the competition, the boat commissars are responsible for enforcing that competitors comply with the law and particular rules.

II SPEARFISHING WORLD CHAMPIONSHIPS FEMALE – 2023

THE COMPETITION:

The Director of Competition together with the CMAS Technical Delegate will direct the boats of the participants to the middle of the competition area, already detailed with the captains at the meeting.

Once arrived, a count of the participants will be carried out and the start and end time of the Competition will be communicated. Likewise, the time margin to reach the meeting point will be notified at the end and pass a new arrival control.

To make the departure all boats will gather within the designated area, those competitors that are located outside this area can be reprimanded. The area will be designated and marked at the captains' meeting.

The end of the competition day will be announced by the Technical Delegate or Tournament director with sound and visual signals, as well as announcements by the VHF marine radios.

The organization vessel will have:

- Red flag-Emergency alert, order of assistance.
- White flag and horn- Beginning and End of the Competition.

At the end of the competition signal, the competitors will stop fishing and return to the boats. Any catch that is not on the surface will not be valid.

PENALTY FOR DELAY IN TIME MARGINS (LIMITS):

- | | |
|--------------------------------------|------------------|
| • Up to 5 minutes | 2.000 points |
| • Each additional minute or fraction | 500 points |
| • More than 15 minutes | DISQUALIFICATION |

When maneuvering the boats, boatmen must be very careful not to disturb or interrupt other competitors, they should stay away from them, and when necessary, they should alert other boaters in the vicinity of their competitor to prevent possible accidents or disturbances. The boatman is responsible for steering the vessel and respecting the rules, both maritime and competition. He can give the necessary equipment on board to the athlete who is in the water, collect the catch and remove it from the harpoon (shaft) if requested, **only once the fish is** on board.

Spearguns can only be loaded by athletes in the water, no one else can intervene. Boatmen can retrieve buoys or raise (lift) pendulums when the competitor is on board of the boat.

The boats may not intentionally disturb the fishing area, creating turbulence or making circles to cave the fish. This conduct will be punished with warning.

The athletes cannot leave the Competition without notifying the Technical Delegate and the organization (tournament director). Once notified and authorized to withdraw, the catches will be valid for the purpose of the Competition.

- Catching species prohibited by national legislation or specified by the organizing federation or violating any local fishing laws.

II SPEARFISHING WORLD CHAMPIONSHIPS FEMALE – 2023

- Replace catches of regulated species or exchange them between athletes.
- Use any type of scuba diving or self-contained breathing apparatus.
- Be diving or sailing in the competition area, with or without a rifle, before the start time of the day on competition days.
- Return, discard or leave at sea any type of catch: invalid, prohibited, or valid of any weight.
- Fraud in the weight of catches.
- Use of power heads, exploding tips, luparas, and / or any gadget with explosive power or any system which is not charged by human physical effort.
- Use of any diving breathing system, or use of submarine propeller gadgets as “torpedo”. During the official competition time, as well as during the official period of zone visit or exploration before the tournament.

COMPLAINTS:

- Each participating team has the right to submit claims to the jury.
- Claims can only be signed and delivered by the team captain.
- Any claim must be accompanied by a deposit or bond, the value of which will be fixed by CMAS.
- It must be submitted in writing, in French, English or Spanish to the Technical Delegate:
 - Before weighing as far as the development of the competition is concerned.
 - During the weighing so it affects the weighing itself.
 - With regard to an error in the classification, the intention to complain must be made to the CMAS Delegate within 15 minutes of the publication of the classification and be accompanied by the deposit of the established deposit. (This measure has the immediate effect of delaying the formal medal ceremony.)
- From the time of the intention to deliver a claim, the claimant will have a period of 30 minutes to write and deliver his or her written report to the CMAS Technical Delegate. Failing that, the claim will be considered null and void and the deposit will be forfeited.
- The complaint will be declared unacceptable if these conditions are not met.

II SPEARFISHING WORLD CHAMPIONSHIPS FEMALE – 2023

- The deposit will be returned if the claim is accepted and will remain with CMAS if it is not accepted.
